Be. Monko.

GENESIS

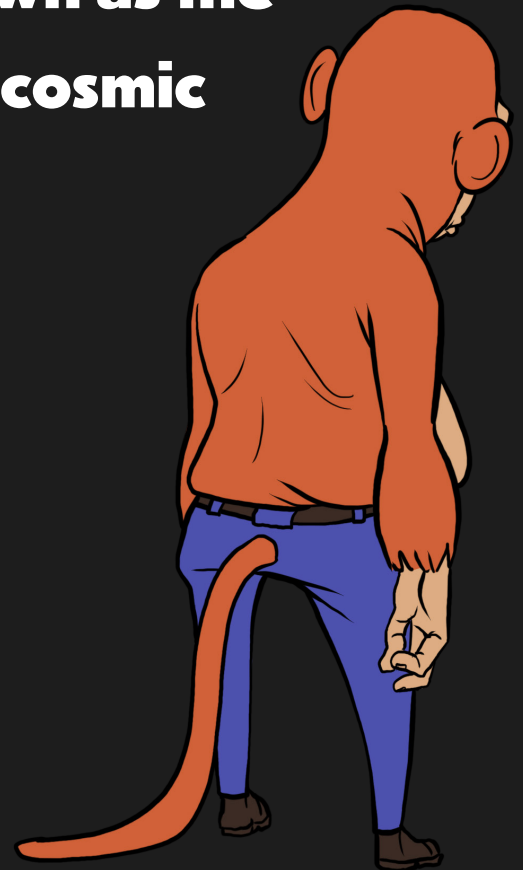

Monko was always watching his other meme friends get all the attention, **Pepe**, **Bonk** and **Snek**.

Monko decided one day that he had enough of being ignored. He was tired of seeing the deception and dishonesty in the Algorand Meme Jungle.

Facing impossible odds, endless swarms of Jeets and low liquidity...he needed a way to speak to the hearts of all the Tribes of Algorand.

11/14/24 would come to be known as the day Monko received the ultimate cosmic wisdom, to simply:

Be Monko, and they will come.

Monkoism.

To **Be. Monko.** is to live simply, joyfully, free from the complexities of human life.

In the **Algorand Jungle**, **Monkoism** teaches us to **BE**, to find enlightenment in **pain** and **patience**, and to swing through life with the carefree spirit of **Monko.**

The 6 Pillars of Monkoism.

I. Endure Pain in the Face of Profits.

- The true **Monk** must withstand temptation of profit without faltering. The path to enlightenment is fraught with financial tests; your dedication is measured by your steadfastness, not by the gains you might secure.

II. PATIENCE AND PAIN ABOVE ALL

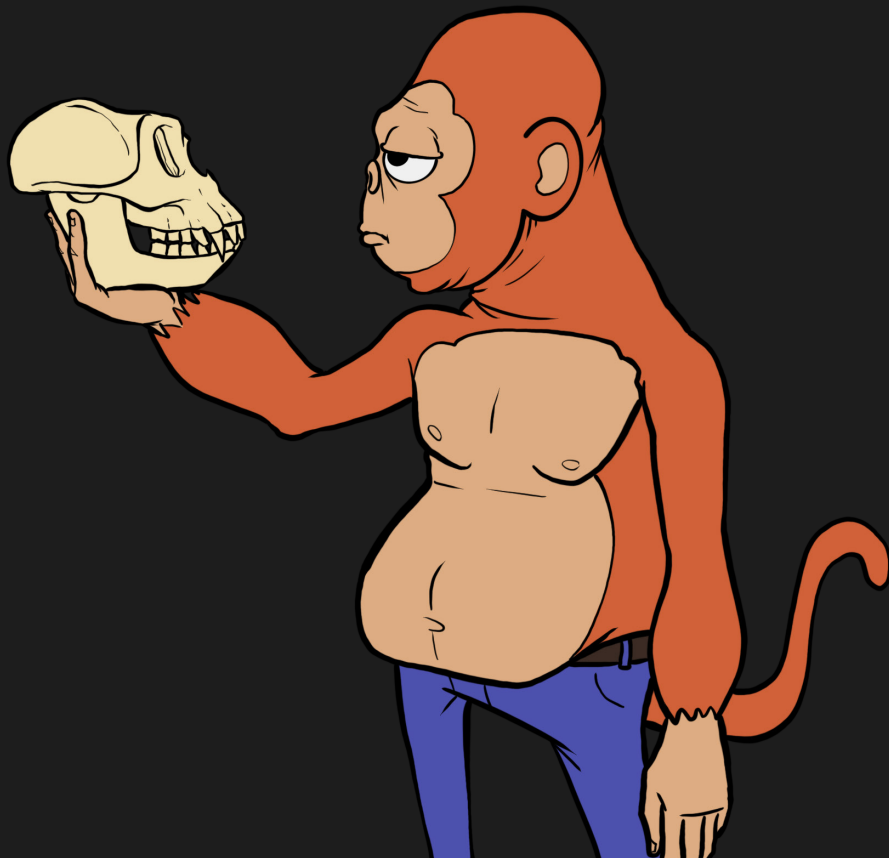

- **PATIENCE** transcends mere waiting; it's about enduring through the **PAIN, DIPS** and **FUD**. The Monk knows that true worth ripens over time, much like the wisdom of the ancient meme apes.

5M	1H	6H	24H
-2.79%	-1.06%	-22.67%	-23.75%

III. DO NOT BUY \$MONKO, BE \$MONKO

- The essence of **\$Monko** isn't in owning the token but embodying the spirit of **Monko**. To be a Monk is to live the philosophy, to adopt the mindset. The token is merely a symbol; the real value lies within you. **Monko.**

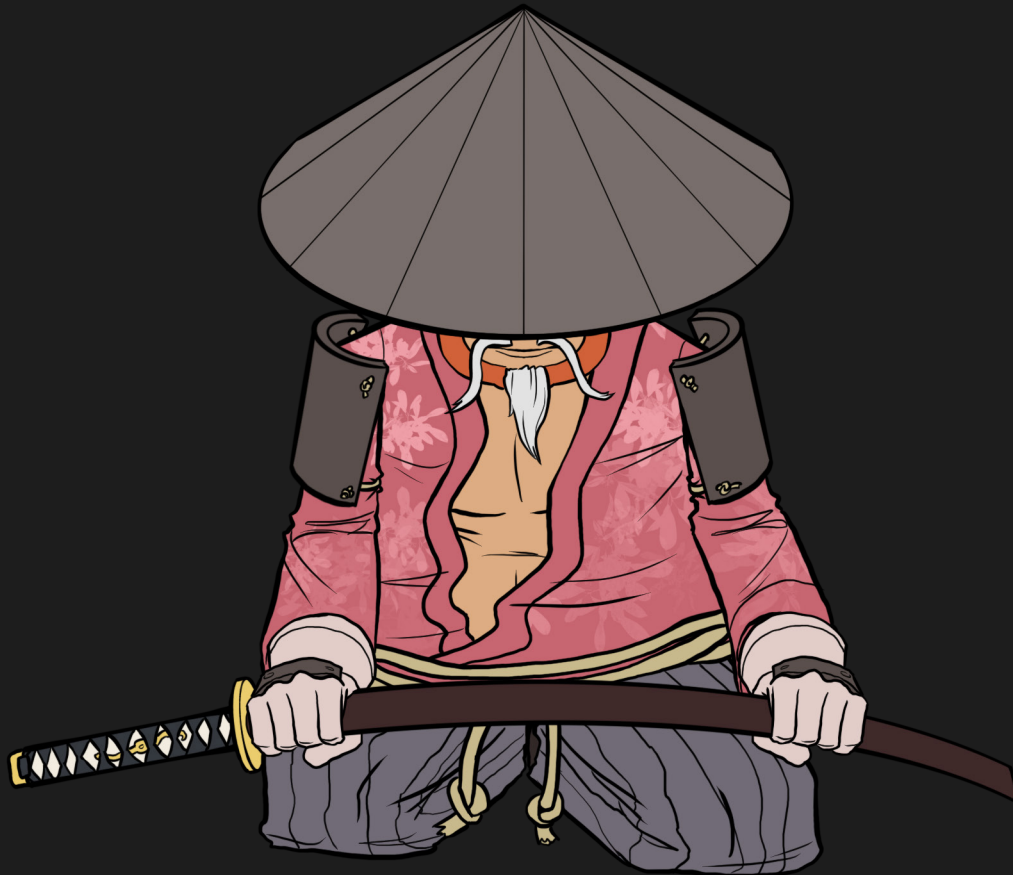

IV. THE SIMPLE SHALL INHERIT THE KINGDOM

- Complexity is the enemy of the **Monk**. Embrace simplicity, for in straightforwardness, there is truth.

V. GREED IS DISHONOR

- Excess is not the path of the **Monk**.
Monks must be detached from the materialism whilst maintaining balance between the digital world and enlightenment. **Monko**.

VI. MONKO

The essence of being.

The affirmation of
identity and purpose
within **Monkoism.**

Simply. Be.

Characters

The Monko universe is filled with different beings that Monko encounters throughout his journey, many of these characters are symbols for experiences and concepts you will encounter on your path to enlightenment.

Sensei Monko

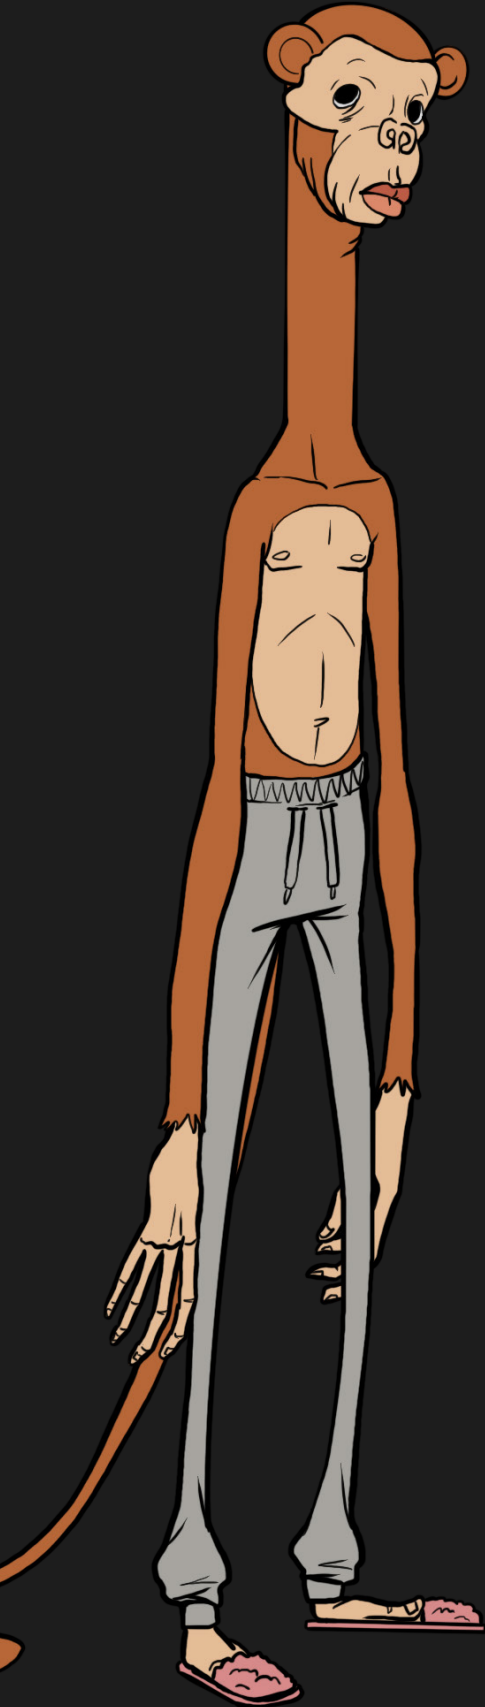

An Ancient **Monk** who has experienced true enlightenment by following the path of **Monkoism**. He guides all **Monks** on their journey, with his ancient wisdom.

Greed Goblin.

Greed Goblins lurk around every corner, waiting to deceive Monks and concerned only with short-sighted profits. Beware.

Monkus

Monkus comes from other Blockchains, such as Solana or Ethereum.

He buys every new coin and follows every trend, he has no understanding of what Blockchain is. He embodies the meme culture of the old dying chains.

Monka

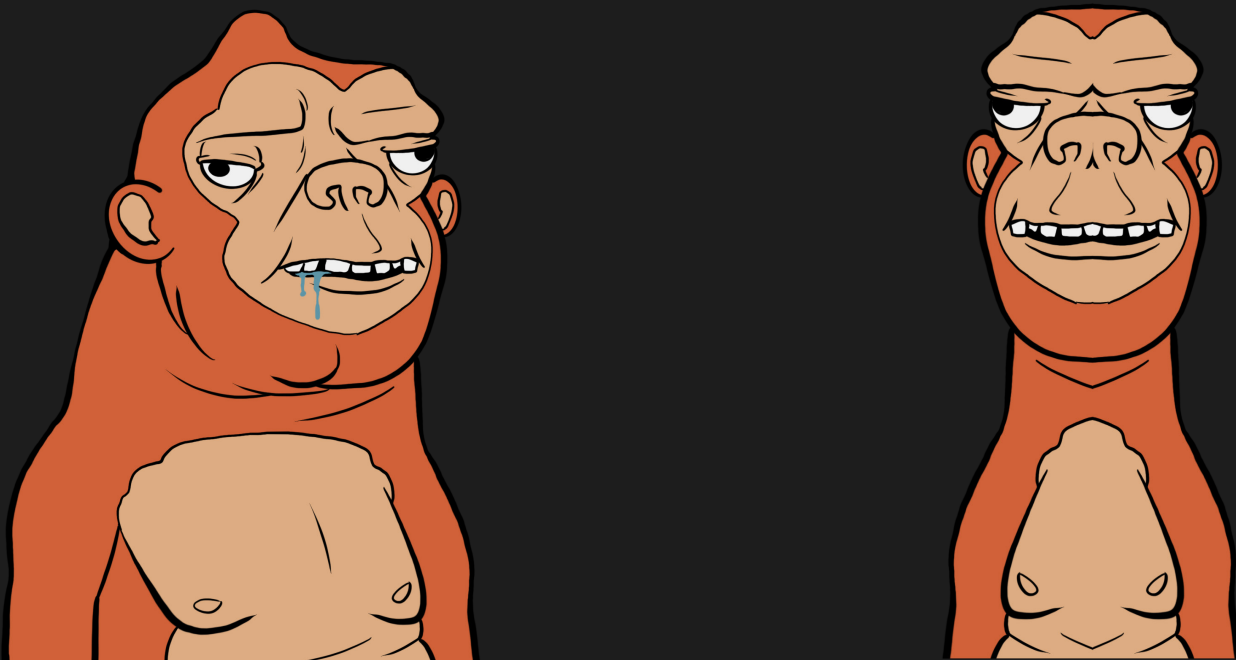

Monka stands behind all Monks, she remains hopeful his journey pays off but is not overly convinced or interested.

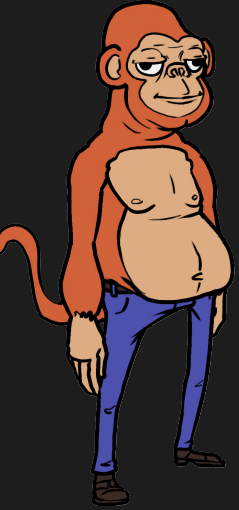

Mongo & Mondo

The Twins of Ignorance

**Mongo and Mondo will never
trully understand Monkoism,
but they like the meme.**

\$MONKO TOKEN

The MONKO Token Documentation is a conceptual paper that elucidates some of the main design principles and ideas for the creation of a digital token to be known as MONKO.

The Token Documentation and the Website are intended for general informational purposes only and do not constitute a prospectus, an offer document, an offer of securities, a solicitation for investment, any offer to sell any product, item, or asset (whether digital or otherwise), or any offer to engage in business with any external individual or entity provided in said documentation.

The information herein may not be exhaustive and does not imply any element of, or solicit in any way, a legally-binding or contractual relationship. There is no assurance as to the accuracy or completeness of such information and no representation, warranty or undertaking is or purported to be provided as to the accuracy or completeness of such information. Where the Token Documentation or the Website includes information that has been obtained from third party sources, the Company, the Distributor, their respective affiliates and/or the Monko contributors have not independently verified the accuracy or completeness of such information. Further, you acknowledge that the project development roadmap, network functionality are subject to change and that the Token Documentation or the Website may become outdated as a result; and neither the Company nor the Distributor is under any obligation to update or correct this document in connection therewith.

Token Doc/Website Validity

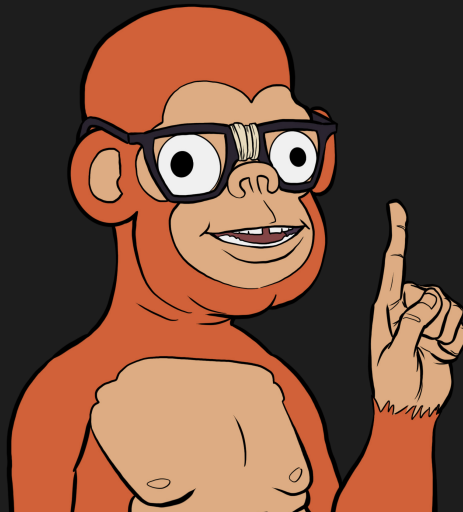

Nothing in the Token Documentation or the Website constitutes any offer by the Company, the Distributor, or the Monko contributors to sell any MONKO (as defined herein) nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision. Nothing contained in the **Token Documentation** or the Website is or may be relied upon as a promise, representation or undertaking as to the future performance of the Monko ecosystem. The agreement between the Distributor (or any third party) and you, in relation to any distribution or transfer of MONKO, is to be governed only by the separate terms and conditions of such agreement.

The information set out in the Token Documentation and the Website is for community discussion only and **is not legally binding**. No person is bound to enter into **any contract or binding legal commitment in relation to the acquisition of MONKO**, and no digital asset or other form of payment is to be accepted on the basis of the Token Documentation or the Website. The agreement for distribution of MONKO and/or continued holding of MONKO shall be governed by a separate set of Terms and Conditions or Token Distribution Agreement (as the case may be) setting out the terms of such distribution and/or continued holding of MONKO (the Terms and Conditions), which shall be separately provided to you or made available on the Website. The Terms and Conditions must be read together with the Token Documentation. In the event of any inconsistencies between the Terms and Conditions and the Token Documentation or the Website, the Terms and Conditions shall prevail.

Deemed Representations and Warranties

- (A)** In any decision to acquire any MONKO, you have not relied on and shall not rely on any statement set out in the Token Documentation or the Website;
- (B)** You will and shall, at your own expense, ensure compliance with all laws, regulatory requirements, and restrictions applicable to you;
- (C)** You acknowledge, understand, and agree that MONKO may have no value, there is no guarantee or representation of value or liquidity for MONKO, and MONKO is not an investment product nor is it intended for speculative investment of any kind;
- (D)** None of the Company, the Distributor, their respective affiliates, and/or the Monko early contributors shall be responsible for or liable for the value of MONKO, the transferability and/or liquidity of MONKO, and/or the availability of any market for MONKO through third parties or otherwise.
- (E)** You acknowledge, understand, and agree that you are not eligible to participate in the distribution of MONKO if you are a citizen, national, resident (tax or otherwise), domiciliary, and/or green card holder of a geographic area or country (i) where it is likely that the distribution of MONKO would be construed as the sale of a security (howsoever named), financial service, or investment product and/or (ii) where participation in token distributions is prohibited by applicable law, decree, regulation, treaty, or administrative act (including without limitation the United States of America, Canada, and the People's Republic of China); and to this effect, you agree to provide all such identity verification documents when requested in order for the relevant checks to be carried out.

Monko Token

(A) does not possess any tangible or physical form, and has no inherent value (with no guarantees or assurances regarding its value from any individual);

(B) is non-refundable and cannot be converted into cash (or its equivalent in any other digital asset) or represent any payment obligation by the Company, the Distributor, or any of their affiliates;

(C) does not bestow or imply any rights to the token holder with respect to the Company, the Distributor (or any of their affiliates), or their financial assets or income, including, but not limited to, rights to receive future dividends, profits, shares, ownership rights or stakes, securities, voting rights, distribution rights, redemption rights, liquidation rights, proprietary rights (including all forms of intellectual property or license rights), rights to receive financial statements or other fiscal data, rights to request or participate in shareholder meetings, rights to nominate a director, or any other financial or legal rights or equivalent rights, or intellectual property rights or any other form of participation in or associated with the Monko ecosystem, the Company, the Distributor, and/or their service providers;

(D) is not designed to represent rights under a contract for differences or any other contract whose purpose or supposed purpose is to secure a profit or avoid a loss;

(E) is not meant to be considered as money (including electronic money), securities, commodities, bonds, debt instruments, units in a collective investment scheme, or any other type of financial instrument or investment;

is not a loan to the Company, the Distributor, or any of their affiliates, is not intended to signify a debt owed by the Company, the Distributor, or any of their affiliates, and there is no anticipation of profit; and does not grant the token holder any ownership or other interest in the Company, the Distributor, or any of their affiliates.

Notwithstanding MONKO distribution, users have no economic or legal rights over or beneficial interest in the assets of the Company, the Distributor, or any of their affiliates following the token distribution.

If a secondary market or exchange for trading MONKO does emerge, it would be managed and operated entirely independently from the Company, the Distributor, the distribution of MONKO, and the Monko ecosystem. Neither the Company nor the Distributor will establish such secondary markets, nor will either entity serve as an exchange for MONKO.

Token Distribution Overview

All \$MONKO tokens were released simultaneously upon creation of the token. There has been no pre-sale event, and no tokens were set aside for pre-sale distribution. The entire supply of \$MONKO tokens was made available to the public at the inception of the project, which ensures an egalitarian distribution model where every participant has an equal opportunity to acquire tokens from the outset.

RISK

The Monko ecosystem is currently in its initial development phase, and there are numerous unforeseeable risks involved. You acknowledge and agree that acquiring MONKO, holding MONKO, and using MONKO to participate in the Monko ecosystem carries with it various risks. In the worst-case scenario, this could result in the loss of all or a portion of the MONKO you possess. IF YOU CHOOSE TO ACQUIRE MONKO OR ENGAGE IN THE MONKO ECOSYSTEM, YOU EXPRESSLY ACKNOWLEDGE, ACCEPT, AND ASSUME THE FOLLOWING RISKS:

Uncertain regulations and enforcement

The regulatory status of the Monko ecosystem, MONKO, and distributed ledger technology remains ambiguous or unresolved in many jurisdictions. The regulation of digital assets has emerged as a focal point for regulatory scrutiny across all major countries globally. It is not possible to anticipate how, when, or if regulatory bodies will enforce existing regulations or introduce new ones concerning this technology and its applications, including MONKO and/or the Monko ecosystem. Such regulatory measures could adversely affect MONKO and/or the Monko ecosystem in various ways. The Company, the Distributor (or their respective affiliates) might halt operations in any jurisdiction where regulatory actions, or changes in law or regulation, render operations illegal or make it commercially unfeasible to secure the required regulatory approvals to operate. After consulting with a wide range of legal advisors to minimize legal risks, the Company and the Distributor will conduct business in line with current market practices.

Inadequate disclosure of information

The Monko ecosystem is still under development, with ongoing updates to its concepts, mechanisms, and technical details. This document provides the latest but not exhaustive information, subject to change by Monko early contributors. They are not obligated to update holders on every project detail, making some information disclosure gaps expected.

Talent loss

The Monko ecosystem's development depends on its expert contributors. Losing key members or facing internal conflicts could hinder progress.

Failure to develop

The Monko ecosystem's development may not follow plan due to risks including price drops in digital assets, technical issues, or funding shortages.

RISKS (Cont)

Dissolution

Start-ups like the Company, the Distributor, or their affiliates face significant risks. Common challenges include product development, marketing, financing, and management, which can be insurmountable. Factors such as cryptocurrency value fluctuations, reduced utility of MONKO due to poor adoption of the Monko ecosystem, failed business partnerships, or intellectual property disputes could lead to the Monko ecosystem becoming unviable, potentially resulting in the dissolution of these entities.

Security Threats

Hackers or malicious entities might attempt to disrupt MONKO and/or the Monko ecosystem through various methods like malware, denial of service, consensus-based, Sybil, smurfing, and spoofing attacks. Additionally, there's a risk that a third party or someone within the Company, the Distributor, or their affiliates might introduce vulnerabilities, either deliberately or accidentally, into the core infrastructure, adversely affecting MONKO and/or the Monko ecosystem. The future of cryptography and security is uncertain; breakthroughs in these fields, including the potential development of quantum computing, could pose new risks by nullifying the current cryptographic consensus mechanisms that secure the blockchain protocol.

Additional risks

Furthermore, the risks outlined above are not comprehensive; additional risks exist (detailed in the Terms and Conditions) related to participating in the Monko ecosystem, acquiring, holding, and using MONKO, including unforeseen risks that the Company or the Distributor might not predict. These could emerge as new forms or combinations of the risks mentioned. You are advised to perform thorough due diligence on the Company, the Distributor, their affiliates, and the Monko early contributors, and to grasp the full scope, mission, and vision of the Monko ecosystem before deciding to participate or acquire MONKO.
